	different talents. This became very clear to me during my 9 years on the Board of The Catholic Foundation. Members with different backgrounds allows the Board to see issues from different angles so they can more effectively guide the organization. You need legal, accounting, management etc As I reflect on 2020 and look beyond, I see an increasing need for sound risk management practices in every organization. I believe my background can help the chapter employ sound risk management tactics as we deal with the challenging issues ahead.		
	2. Commitment - Simply put, I am at a stage in my career that allows for more time away from my business. This provides an opportunity to "give back" to the organizations that have helped me along the way. If elected, I am committed to keeping this chapter moving forward.		
	3. Gratitude - CAI changed my career path and the direction of my agency about 20 years ago. As a result, I feel a deep sense of appreciation. I am thankful for the members who have volunteered their time in the past to give me such a great opportunity. I am sincerely interested in protecting the long-term success of the chapter as I would like others to benefit as well. I am running for the Board because I want to give back to an organization that provided so much opportunity for me and my agency.
